January 11, 2011

Dear Beach Park School District Families:

We are implementing an exciting new enrollment system for the upcoming school year. In an effort to reduce paper waste, improve accuracy, and increase efficiency, we will be replacing our previous paper registration practices with an online process. Beach Park School District is partnering with Infosnap, Inc. Infosnap, Inc. will provide our families with an online registration system. This new process will begin with our registration event for the 2011-2012 school year.

Customized, secure and easy to use registration forms will be made available to our families from our website. Infosnap is accessible from any internet connection, 24/7/365 and there is no repetitive data entry. Your child's information will be pre-populated in Infosnap allowing you to simply update information as needed. The online registration process is available in English and Spanish. Infosnap help/support is available 24/7/365 via email. Phone support is available as well.

As the registration event draws near, parents will receive in the mail a letter from our district with a unique password so they may access the online registration portal and complete the online registration process.

Please watch for more information on our new online registration process in the near future.

Best regards,

**Maureen Urban
Database Coordinator
